KINETIC Intelligent Urinal Control - gloss white

FEATURES

Perfect for use within commercial washrooms featuring multi-station urinal systems. **Water-Saving** regulates flushing based on actual washroom usage saving up to **80%** of water when compared with traditional systems.

- Passive infrared sensor detects user movements
- Can be easily installed into pipework, wall or ceiling
- Supplied with flush mounted kit for aesthetic installation
- Control box can be installed remotely from the solenoid using the 1m cable supplied
- Quick and simple set up software
- 12h hygienic and 24h economy flushing modes
- Kinetic's fast fill reduces scale build up
- Tamper proof design
